

Rectangular Hardwood Cribbing Block

SWC-BLOCK-001 | Rev A | Units: mm

Quantity: 8 pieces. Finished size: 300 L x 150 W x 75 H.

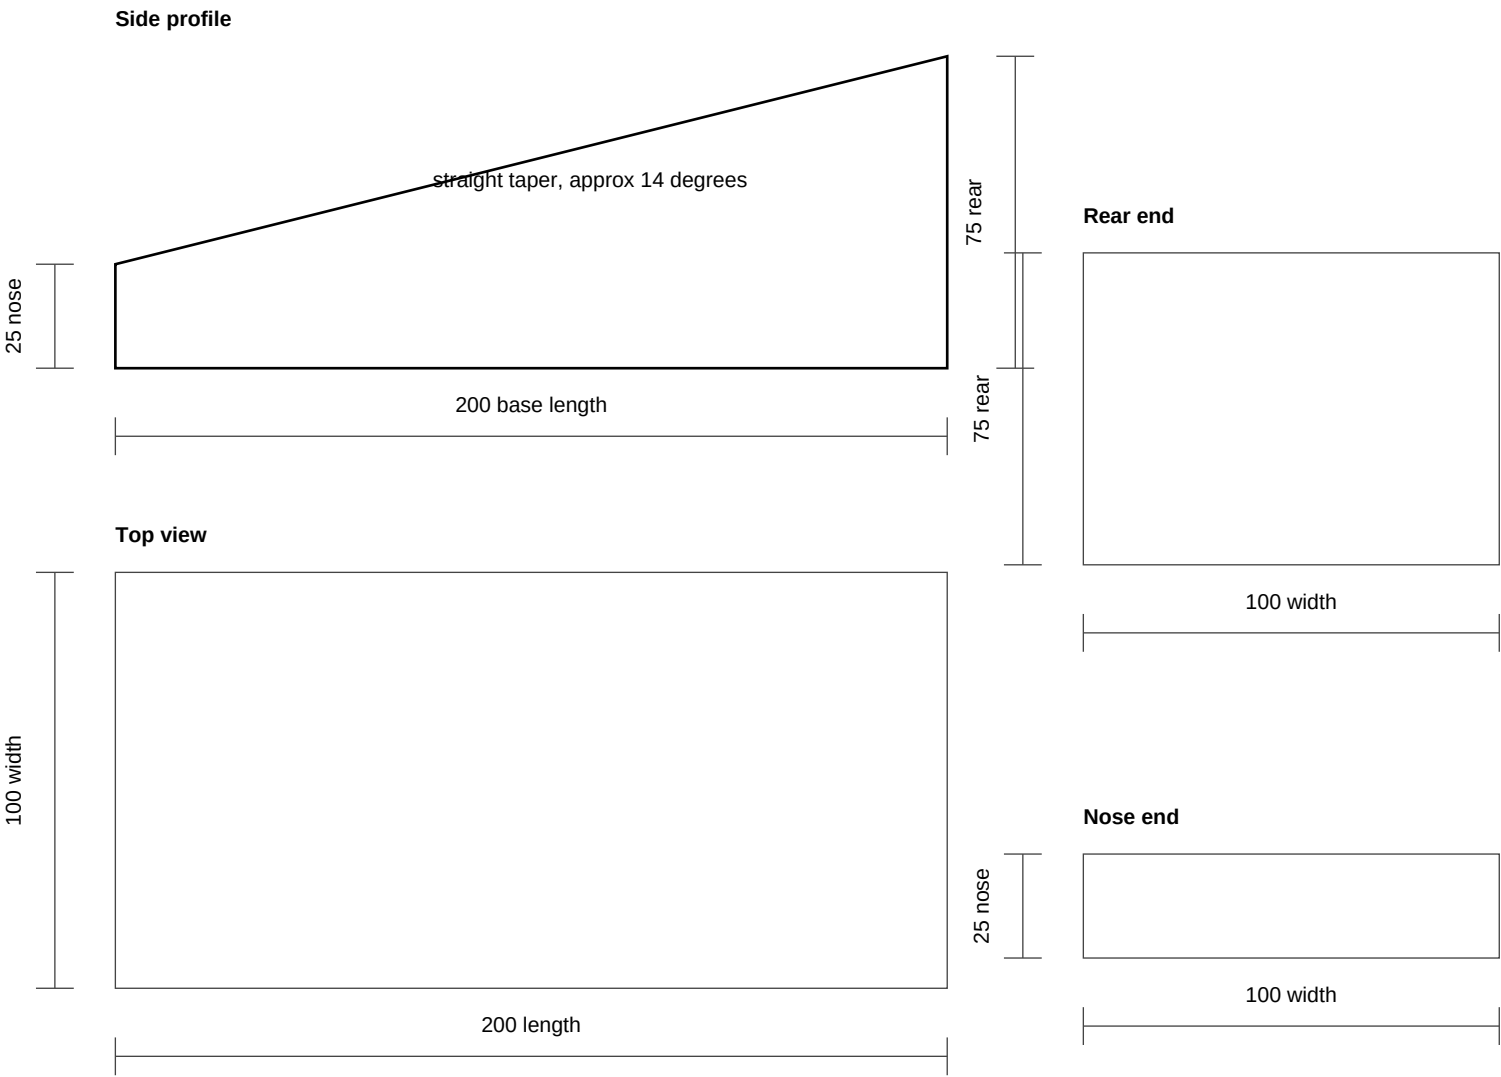

Shop notes

- Control dimensions are metric. A 12 x 6 x 3 inch merchant cut is acceptable only if the finished piece is not smaller than tolerance.
- Tolerance: length +/-5 mm, width +/-3 mm, height +/-3 mm.
- Grain must run along the 300 mm length.
- Faces must be flat, parallel, and stable on a flat floor with no rocking.
- Light 3-5 mm edge chamfer is allowed; keep broad bearing faces flat.

Hardwood Wedge Chock

SWC-CHOCK-001 | Rev A | Units: mm

Quantity: 4 pieces. Finished size: 200 L x 100 W, 75 rear height, 25 nose height.

Shop notes

- Control dimensions are metric. This is a blunt-nose wedge, not a feather-edge wedge.
- Tolerance: length +/-5 mm, width +/-3 mm, rear height +/-3 mm, nose height +/-3 mm.
- Cut from a 200 x 100 x 75 mm solid hardwood blank, or from an 8 x 4 x 3 inch blank if using inch stock.
- Flat bottom must sit stable across the full 100 mm width.
- If the timber merchant cannot cut the taper cleanly, buy four extra 200 x 100 x 75 mm blanks and let the workshop cut them.
